MIDDLE SCHOOL PHILOSOPHY

The Board recognizes the unique characteristics and needs of middle level students and believes the purpose of the Linden Avenue School should be to provide a supportive environment for the intellectual and personal development of each student.

To that end, the Linden Avenue School should be dedicated to:

- Preparing students with the understanding and skills to cope with the transition from childhood to adolescence,
- Providing students with the academic skills and knowledge essential for continued school success and life-long learning,
- Developing in all members of our school community respect for individual differences and the rights of others, and
- Encouraging educational partnerships between the school community and the community at large.
