New Board Member Orientation

The Board provides for the orientation of newly elected or appointed board members. The superintendent and experienced board members have the responsibility of assisting new board members in familiarizing themselves with their duties and responsibilities. New board members are expected to become acquainted with school operations as quickly as possible.

The Board and Superintendent shall provide new board members such information that may be helpful to their understanding of the school district operation.

New Board members are encouraged to attend regional and state orientation meetings especially designed to help them carry out the obligation of effective Board stewardship.
