

RED HOOK CENTRAL SCHOOL DISTRICT

POLICY # 7000

Facilities Development Goals

Facilities development goals for the Red Hook Central School District to be observed in the planning of new school buildings include the following:

1. Facilities and equipment shall support all needs of the educational program.
2. All facilities shall be designed with particular attention to safety, lighting, heating, ventilation, acoustics, spatial factors and aesthetic appearance.
3. School spaces shall be flexible and adaptable through the incorporation of such features as moveable walls, in order to accommodate present-day and future needs for instructional areas and to accommodate future changes in school curriculum, instructional methods, administrative organization, and frameworks for the use of time, space, and personnel.
4. The adaptability of school facilities to community use shall be considered.

Note: Prior manual, Section 8703.02, revised
