

RED HOOK CENTRAL SCHOOL DISTRICT

POLICY # 8120

Accident Prevention and Safety Procedures

It is the responsibility of the entire school community to report any unsafe building or equipment conditions to the main office as soon as possible. If students observe other students acting in an unsafe manner, this behavior should be reported to the nearest available teacher.

The Board recommends the following safety procedures be observed to prevent accidents on the school premises:

1. Immediately report any conditions involving equipment or buildings which may be dangerous to a student's health or welfare.
2. Immediately report any unsafe practices by anyone in the building or on the grounds.
3. Remember the speed limit on school grounds is 15 m.p.h.
4. Cars must be parked in areas provided by the Board. Students desiring parking privileges must apply for spots at the assistant principal's office.
5. Bicycles are to use the roadways not the sidewalks. Bicycles are to be parked in the rack provided by the school. Pleasure riding on the school grounds is prohibited during school hours.

Formal objective investigations of all accidents are immediately conducted and the results of the investigation are presented to the Superintendent in a written report.

The results of selected investigations are communicated to employees and students for the purpose of pointing out how the accidents might have been avoided.
