

Red Hook Central School District

November 19, 2020

Dear Red Hook Central School District Community:

Today the Red Hook Central School District received notification of a positive COVID-19 result for a student at the Red Hook High School. Another student from the Red Hook High School has been epi-linked to the COVID positive student. As a result, these individuals are currently isolated, and due to federal health privacy laws, further information about their identity or condition cannot be released.

Neither of these individuals have been on campus since November 10, 2020. After consultation with the Department of Health, no further action is necessary.

It is imperative that you contact your building principal or school nurse immediately with any COVID-19 positive results so we can follow up with proper contact tracing and safeguarding our students and staff.

Thank you for your ongoing support. If you have any questions, please contact the school nurse or building administration.

Respectfully,

Janet Warden
Superintendent
