

We are looking forward to welcoming our students back next week on Tuesday, October 13<sup>th</sup>. We are excited to implement our hybrid schedule across the District. It will be wonderful to see students in classrooms and engaging with their teachers. Many thanks to our families and staff districtwide who have supported our efforts during this transition.

As a reminder, all students and staff will be required to follow all protocols to ensure a safe environment for teaching and learning. Also remember to complete the daily health screening and refer to our district website for resources which support these efforts.
