

## **Security Response**

The District is responding to a voluminous amount of email correspondence and phone communication related to an inaccurate article published by a Fox News reporter. This reporter and a handful of national organizations have featured these misrepresentations on websites and YouTube channels. Some non-community members are responding to the inaccurate content with hostile, hateful emails and/or phone calls to school district personnel. In accordance with our safety and security protocols, law enforcement officials have been notified and are joining us in monitoring the situation.
